## STATE MINISTER

### STATE MINISTER

MINISTRY OF EDUCATION  
GOVERNMENT OF THE  
PEOPLE'S REPUBLIC OF BANGLADESH

East West University will hold its second Convocation on 20th May, 2003.

The Convocation is a very special event for the students, and for the faculty and administration of the University. For the students, it represents the culmination of years of hard work, and recognition that they have completed the requirements of the degree. They may now look forward to careers where they should utilize what they have learnt at the University.

The graduating students should consider themselves fortunate to have studied at East West University, which provides quality education with skilled faculty and capable administrators. Not many in Bangladesh can consider themselves so fortunate. They owe it to their parents, to the University and to society for having given them this opportunity.

I hope they will strive their utmost to succeed in life and be a credit to all these groups.

I heartily congratulate the graduates for their success, and wish them a bright and prosperous future in their chosen fields. I also extend my felicitations to their committed faculty and proud parents.

A.N.M. Ehsanul Hoque
