## East West University holds fire drill

'Now we know what to do if there is a fire,' says EWU vice chancellor

Fire Service personnel perform rescue and firefighting exercises Courtesy

A fire drill was held at East West University in Dhaka's Aftabnagar on Thursday.

The exercise began with a loud whistle of a fire alarm. Later, everyone at East West University came downstairs and gathered in the courtyard, said a media release.

After that, Fire Service personnel performed various rescue and firefighting exercises in the presence of the teachers and students.

The firefighting exercise was led by Prof MM Shahidul Hassan, vice chancellor of East West University.

He said: "We do not know when a fire will break out, but now we know what to do if there is a fire."

He hoped the exercise would help reduce the loss of life and property in case of a fire at the organization.
