A Memorandum of Understanding (MoU) has been signed between the Department of Computer Science and Engineering (CSE) of East West University (EWU), and the international organization DAEJAYON of South Korea.

DAEJAYON is registered with the Korean Ministry of Environment and a member of the International Union for Conservation of Nature (IUCN).

This MoU was signed between the two parties on Tuesday at the EWU campus Aftabnagar of the capital.

As a result of this agreement, the Korean organization will help East West University to explore energy conservation, ecosystem restoration, green computing, and initiatives to make the campus more eco-friendly and sustainable.

Over the next two years, DAEJAYON will do these things in partnership with EWU.
