

**STATE MINISTER**

MINISTRY OF EDUCATION
GOVERNMENT OF THE PEOPLE'S REPUBLIC OF BANGLADESH

It gives me great pleasure to know that East West University is holding its Fifth Convocation. My congratulations to the graduates, faculty members and staff on this auspicious occasion.

East West University has been progressing at a remarkable speed and has already become a role model for others in its tireless efforts to achieve excellence in the field of education. In addition, EWU is also helping our student community to develop a zeal for discovering the zest for knowledge and learning which will help them transform their knowledge into the power to serve our nation and humanity as a whole. They should try hard to meet the demands and needs of their professions in an increasingly complex and competitive world.

I believe that at this turning point of their life, the graduates of East West University are fully aware of the challenges, perils and promises lying ahead of them in achieving their goals and dreams of serving the nation the best way possible.

May Allah grant them the strength to do so.

A.N.M. Ehsanul Hoque
