Professor Nazrul Islam
Chairman

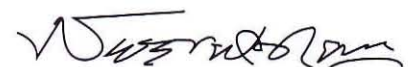

University Grants Commission of Bangladesh

Message

It gives me immense pleasure to know that East West University is organizing its 9th Convocation. I would like to congratulate the graduating students, their proud parents, faculty members and the administration of the university on this happy occasion.

In its 12 years journey East West University has come a long way to be widely acknowledged as one of the leading private universities of Bangladesh. We believe that East West University graduates are provided with quality education and are also equipped with the mindset needed to produce good professionals as well as citizens. I hope that the students of this reputed university will be able to address some of the outstanding national and global challenges facing us at this time.

I wish the convocation a success.

Professor Nazrul Islam
